DESIGNER'S STYLE

by Alexandria

This guide will assist you with selecting Moulding by Design, whether you are combining multiple mouldings or pairing mouldings. By design, you can view our selections to achieve the look. Scan the QR codes to view more of the moulding options for each style.

M Modern Simplicity

Highlighting the use of clean, straight lines, this collection is for the urban at heart.

T Traditional Elegance

Trademarks of detailed woodwork and graceful lines with classic styling, creates a calm and comfortable décor.

V Vintage Victorian

Antique inspired, luxurious elements provide a romantic ambiance while complimenting the home's architecture.

E Eclectic Harmony

Integrating elements from multiple styles, creating limitless options for design.

The Right Thing To Do...

Next Time You Buy Green, Look For These Important Certifications:

Forest Stewardship Council (FSC)

This certification indicates a company's ability to produce their product in an environmentally friendly manner. Our FSC certified products are a select line for which we are accountable from the purchase of FSC certified raw materials to the manufacturing process, separate storage and proper product labeling.

Scientific Certification Systems (SCS)

Our MDF product line is certified by Scientific Certification Systems (SCS), which ensures a chain of custody for our recyclable and recoverable materials.

California Air Resources Board Phase 2 (CARB II) and E1 Air Quality (Europe)

These certifications indicate adherence to the North American and even stricter European standards for formaldehyde emissions.

Green Building Certifications

Many of our products may help contribute to green building certifications such as LEEDs, NaHB, or Green Build Canada.

A Greener World for Tomorrow

These days, the environment is a hot topic. Everyone is talking about carbon credits, greenhouse gas, climate change and what we can do to help. From certifications such as FSC and CARB 2 to green building requirements such as LEEDs, and NaHB, there are plenty of options available that get everyone thinking green.

At Alexandria Moulding, we're completely in support of these initiatives. After all, we've been green for a long time. With our roots in our community, we know it's the right thing to do!

Alexandria's ActionPLAN

Alexandria Moulding has always been committed to sourcing, designing, and manufacturing our products in an environmentally-responsible way.

Our production and manufacturing procedures ensure the best yield to reduce waste. We recycle wood chips and sawdust and we use water-based primers and paints.

Providing sustainable products at affordable prices is our way of taking action for the environment.

Alexandria's Commitment

Through our new Alexandria eco-PLAN initiative, Alexandria Moulding is taking even greater steps toward helping the environment. We are committed:

- To provide sustainable and ecologically-responsible options to our customers and clients at competitive prices. Our **Eco-PLAN** will identify products that meet specific criteria, allowing customers to choose in confidence, knowing that the products they pick are better for the environment.
- To strive for continuous improvement in our operations and processes through education and corporate initiatives, and to be transparent in communicating our goals and achievements through annual reports and website updates.
- To remain committed to responsible social practices and continue to promote and support our communities.
- To support eco-initiatives, and to commit to the development of innovative new products that are better for the environment and that maintain or exceed the quality our customers expect.

See your Sales Representatives for more information on eco-PLAN and what Alexandria Moulding can do for you.

Details of our environmental claims and strategy can be found online at:

www.alexandriamoulding.com

Categories	Specific Requirements	Alexandria Compliance
LEED	Leadership in Energy & Environmental Design	
LEED MR 4.1	The sum of post consumer recycled content plus one half of the pre-consumer content is at least 10% of the value of the material	All Alexandria Fiberboard Mouldings
Recycled Content		
LEED MR 4.2	The sum of post consumer recycled content plus one half of the pre-consumer content is at least 20% of the value of the material	All Alexandria Fiberboard Mouldings
Recycled Content		
LEED MR 5.1	A minimum of 20% of the combined value of the material is manufactured regionally within 500 miles	All Alexandria Fiberboard Mouldings (where applicable)
Regional Materials		
LEED MR 5.2	In addition to MR 5.1, a minimum of 10% of the combined value of the material is extracted, harvested or recovered, as well as manufactured, within 500 miles	All Alexandria Fiberboard Mouldings (where applicable)
Regional Materials		
LEED MR 6	Use rapidly renewable material from plants typically harvested from 10 year or shorter cycle for 5% of total value of product	Alexandria Eucalyptus Dowels
Rapidly Renewable Materials		
LEED MR 7	When using new wood-based products and materials, use a minimum of 50% that are certified in accordance with the Forest Stewardship Council's Principles and Criteria (FSC).	All Alexandria FSC Certified Finger Joint FSC Certified MDF also available
Certified Wood		
LEED EQ 4.4	Composite wood and agricfibre products, including core materials must contain no added urea-formaldehyde resins	Alexandria line of no-added-formaldehyde Fiberboard Mouldings
Low Emitting Material		
Composite Wood		
Built Green	Built Green Canada	
Built Green Canada 3.24	MDF Casing and Baseboard used throughout home	All Alexandria Fiberboard Mouldings
MDF		
Built Green Canada 3.25	Finger Joint Casings, Baseboards and Jambs used throughout home	All Alexandria Finger Joint
FJ		
Built Green Canada 3.26	Solid hardwood trim from sustainably harvested sources used for millwork	All Alexandria FSC Certified Finger Joint
Sustainable Sources		
NaHB	National Home Builders (NaHB ICC-700)	
NaHB 2.4	Use Recycled Building Materials -3 pts	All Alexandria Fiberboard Mouldings
Use Recycled Building Materials		
NaHB 2.6	2.6.1 Use Renewable Material (such as bamboo, wood) - 3 pts; 2.6.2 Use Certified Wood (ie: Sustainable Forest Initiative, FSC, PEFC, other) - 4 pts	All Alexandria FSC Certified Finger Joint
Use Renewable Materials		
NaHB 2.8	2.8.1 Use local, indigenous material - 5 pts; 2.8.2 Use Life Cycle Assessment (CSA) to determine which products to use - 8 pts	All Alexandria Fiberboard Mouldings (where applicable)
Use Resource Efficient Material

Ecological MDF

ECOLOGICAL MODERN MOULDINGS

A SIMPLE WAY TO CHANGE YOUR SPACE

MODERN

Creativity, design and style. For the **M Collection**, Alexandria was inspired by today's pure and style-savvy interior decorating trends and has created a collection of mouldings to fit flawlessly into the environment you have conscientiously made your own.

INTELLIGENT

The **M Collection** was created with today's realities in mind. In order to truly simplify the décor process, they are painted universal white* and ready to install. Developed specially for mouldings, this paint is baked-on for maximum durability. It is stain resistant, ultra-washable and scrub-proof. Its uniform, factory-applied satin finish looks professional and can be repainted.

*Matches DecoSmart Collection retouching products

ECO-FRIENDLY

Like you, we are very mindful of the environment. The **M Collection** is made up of low-emission MDF mouldings, containing no urea-formaldehyde, which helps to improve the quality of inside air and lowers our ecological imprint. We use paint that is 100% water-based acrylic for the most eco-friendly choice. Discover other types of pre-painted mouldings with our DecoSmart Collection.

M Collection moulding profiles are offered in lengths between of 8 feet.
