

MAKE YOUR PROJECTS COME TO LIFE

WITH ACRE SHEET GOODS

ACRE™ BY MODERN·MILL

A true revolution in building materials

ACRE is the ideal alternative to wood. It's beautiful, easy to work with, easy to care for, and better for the environment. ACRE is a strong, water-resistant, and guaranteed not to rot, crack or splinter. You'll find ACRE a delight to have on the jobsite. It's light in weight and easy to cut, curve, shape or mold to fit countless exterior and interior applications. ACRE is manufactured in the U.S.A from upcycled rice hulls, making it a sustainable choice that doesn't sacrifice performance.
